

Free Virtual STEM Summer Camp

Hosted by Ohio University

August 2020

- Who:** Students entering 6th–10th grades (ages 11–16) in Southern Ohio interested in learning about STEM topics such as computer programming, energy, water quality, and smart electronics should register! (Priority registration will be given to participants from Jackson, Pike, Ross, and Scioto Counties through July 10. Please note the county designation on the online registration form.)
- Where:** This camp will be delivered “virtually”. Participants will need to have their own internet-connected device (e.g., laptop or tablet), an active and accessible email address, and a quiet space to engage with the instructors.
- When:** Monday, August 3–Thursday, August 6, from 10:00 am–12:00 pm. Connection links and agendas for each day will be emailed to confirmed participants prior to the start of camp.
- How:** Material kits will be mailed out to participants in advance of the camp dates.

Register online today!
